Erdős, Paul
Some recent problems and results in graph theory, combinatorics and number theory. (In English)
Proc. 7th southeast. Conf. Comb., Graph Theory, Comput.; Baton Rouge 1976, 3-14 (1976).

[For the entire collection see Zbl 328.00003.]
The title of this paper gives a clear indication of the contents. The author discusses, in this characteristic style, a number of problems, both solved an unsolved, and conjectures in the fields of chromatic graph theory, generalized Ramsey theory, set systems and combinatorial number theory.
