**Erdős, Pál**

*Problems and results in combinatorial analysis.* (In English)

**Creation Math. 11, 17-20 (1978).**

This paper is a continuation of the author's paper *ibid.* 10, 27-30 (1977; Zbl 415.05006). Some problems and theorems concerning the intersection of sets and its connection with graphs are outlined.

*H. Kröger*
