From the author's introduction: "Many of the problems *A. Hajnal* and I posed 15 years ago [Axiomatic Set Theory, Proc. Symp. Pure Math. 13, Part 1, 17-48 (1971; Zbl 228.04001)] have been solved positively or negatively or shown to be undecidable. I state some of the remaining ones and add a few new ones."
