Losonczy, László

Paul Erdős on functional equations: Contributions and impact. (In English)

Aequationes Math. **54**, No.3, 221-233 (1997). [ISSN 0001-9054]

Short biography of Erdős, and a survey of papers that were inspired by his results and conjectures on extensions of functional equations, almost everywhere additive functions, and additive arithmetical functions. Bibliography of fifty entries.

D.Laugwitz (Darmstadt)

Classification:

01A70 Biographies, obituaries, personalia, bibliographies

39-03 Historical (functional equations)

Keywords:

P. Erdős; functional equations; additive functions
