

## Contents

*F. Ayant, D. Kumar*

- Fredholm type integral equation with special functions .....** 5

*M. E. Balazs*

- Maia type fixed point theorems for Ćirić-Prešić operators .....** 18

*R. S. Batahan, A. A. Bathanya*

- On generalized Laguerre matrix polynomials .....** 32

*H. Dimou, Y. Aribou, A. Chahbi, S. Kabbaj*

- On a quadratic type functional equation on locally compact  
abelian groups .....** 46

*H. Fukhar-ud-din, V. Berinde*

- Fixed point iterations for Prešić-Kannan nonexpansive mappings  
in product convex metric spaces .....** 56

*H. Ö. Güney, G. Murugusundaramoorthy, J. Sokół*

- Subclasses of bi-univalent functions related to shell-like curves  
connected with Fibonacci numbers .....** 70

*S. Kajántó, A. Lukács*

- A note on the paper “Contraction mappings in *b*-metric spaces”  
by Czerwak .....** 85

*R. Khaldi, A. Guezane-Lakoud*

- On generalized nonlinear Euler-Bernoulli Beam type  
equations .....** 90

<i>N. A. Lone, T. A. Chishti</i>	
<b>Fundamental theorem of calculus under weaker forms of primitive .....</b>	<b>101</b>
<i>P. Najmadi, Sh. Najafzadeh, A. Ebadian</i>	
<b>Some properties of analytic functions related with Booth lemniscate .....</b>	<b>112</b>
<i>F. Qi, B.-N. Guo</i>	
<b>On the sum of the Lah numbers and zeros of the Kummer confluent hypergeometric function .....</b>	<b>125</b>
<i>K. Parand, K. Rabiei, M. Delkhosh</i>	
<b>An efficient numerical method for solving nonlinear Thomas-Fermi equation .....</b>	<b>134</b>
<i>E. Peyghan, F. Firuzi</i>	
<b>Totally geodesic property of the unit tangent sphere bundle with <math>g</math>-natural metrics .....</b>	<b>152</b>
<i>R. S. Kushwaha, G. Shanker</i>	
<b>On the <math>\mathcal{L}</math>-duality of a Finsler space with exponential metric <math>\alpha e^{\beta/\alpha}</math> .....</b>	<b>167</b>
<i>N. Ravikumar</i>	
<b>Certain classes of analytic functions defined by fractional <math>q</math>-calculus operator .....</b>	<b>178</b>
<i>K. K. Kayibi, U. Samee, S. Pirzada</i>	
<b>Cyclic flats and corners of the linking polynomial .....</b>	<b>189</b>
