

Acta Universitatis Sapientiae

Mathematica

Volume 9, Number 1, 2017

Sapientia Hungarian University of Transylvania
Scientia Publishing House

Contents

A. K. Asboei, R. Mohammadyari

New characterization of symmetric groups of prime degree 5

C. Carpintero, J. Pacheco, N. Rajesh, E. Rosas, S. Saranyasri

Properties of nearly ω -continuous multifunctions 13

A. C. Cavalcheiro

Existence and uniqueness of solution for a class of nonlinear degenerate elliptic equation in weighted Sobolev spaces 26

Iz. EL-Fassi, A. Chahbi, S. Kabbaj

An extension of a variant of d'Alemberts functional equation on compact groups 45

S. K. Datta, T. Biswas

On the growth measures of entire and meromorphic functions focusing their generalized relative type and generalized relative weak type 53

S. S. Dragomir

Trace inequalities of Cassels and Grüss type for operators in Hilbert spaces 74

M. Eslamian, A. Fakhri

Split equality monotone variational inclusions and fixed point problem of set-valued operator 94

I. Faisal, M. Darus

Study on subclasses of analytic functions 122

<i>M. Ferdows, S. Khan, M. Alam, A. A. Afify</i> MHD boundary layer flow and heat transfer characteristics of a nanofluid over a stretching sheet	140
<i>D. E. Hamdaoui, A. A. Bouchentouf, A. Rabhi, T. Guendouzi</i> Asymptotic normality of conditional distribution estimation in the single index model	162
<i>A. Hosseini</i> Some conditions under which derivations are zero on Banach *-algebras	176
<i>H. Huang, A. H. Ansari, D. Dolićanin-Đekić, S. Radenović</i> Some fixed point results for rational type and subrational type contractive mappings	185
<i>V. Kakkar, V. K. Jain</i> Solvable and nilpotent right loops	202
<i>S. Pirzada, U. Samee, T. A. Naikoo</i> Tournaments, oriented graphs and football sequences	213
<i>L. Li, P. Zhang</i> Unbounded solutions of an iterative-difference equation	224
<i>M. Mattila, J. Merikoski, P. Haukkanen, T. Tossavainen</i> Maximal perpendicularity in certain Abelian groups	235
<i>F. A. Shah, M. Y. Bhat</i> Polyphase matrix characterization of framelets on local fields of positive characteristic	248
<i>P. Chettri, A. Chettri</i> ps-ro fuzzy strongly α-irresolute function	260
Retraction	269
