ISOMETRIC UNIQUENESS OF A COMPLEMENTABLY UNIVERSAL BANACH SPACE FOR SCHAUDER DECOMPOSITIONS

JOANNA GARBULIŃSKA-WĘGRZYN

Communicated by A. R. Villena

ABSTRACT. We present an isometric version of the complementably universal Banach space \mathbb{P} with a Schauder decomposition. The space \mathbb{P} is isomorphic to Pełczyński's space with a universal basis as well as to Kadec' complementably universal space with the bounded approximation property.
